Don't leave yourself open for a ticket. Eliminate the guesswork, save money. This is a quick and easy tool to use. The FINE for failing a roadside FMCSA inspection for something as simple as load displacement is often larger than many drivers can afford. In addition, The Federal Motor Carrier Safety Administration reported that they will be increasing the number of roadside inspections. They will be watching for over weight loads, over axle weight and safety related issues. Buy one or two. Pin size for trailer holes are 1.5". Also for 1.75 size holes.
